

# Establish Cyber Resiliency & Implement a Cybersecurity Strategy with Our Cybersecurity Fusion Centre (CFC) Framework

*In today's cybersecurity landscape, complex infrastructures and siloed operations expose businesses to threats like ransomware and fraud. To prevent this, we must adopt a proactive, integrated, and risk-aware approach to secure our operations 24x7.*

## Innova's Cybersecurity Fusion Center (CFC) Framework

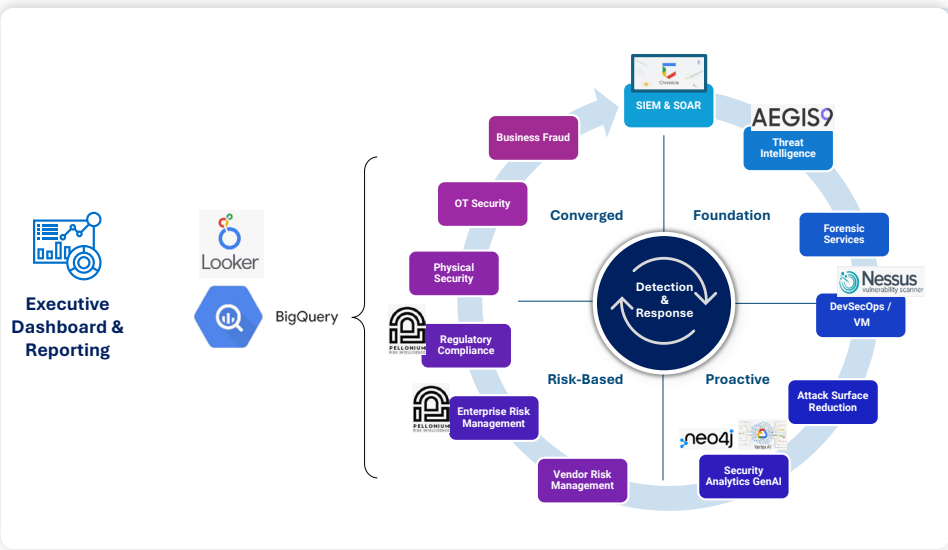

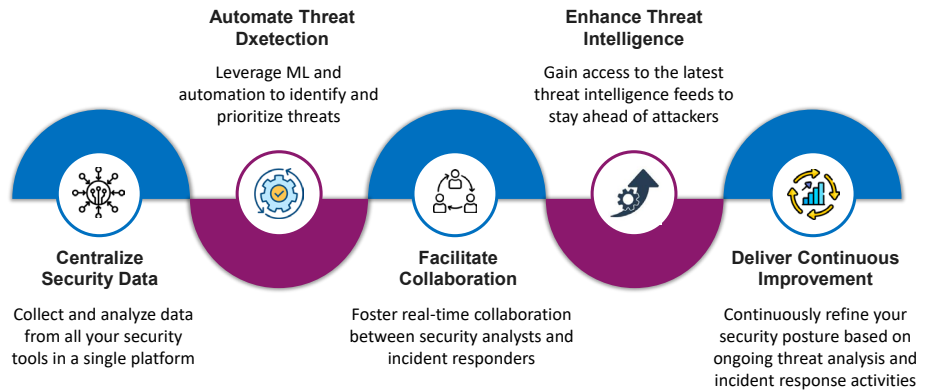

The Cybersecurity Fusion Center (CFC) Framework is a seamlessly coordinated system that integrates cutting-edge technology, robust processes,

and vigilant personnel to protect against cyber threats.

Innova Solutions addresses the unique security challenges enterprises face by delivering customized solutions and strategies aligned with their organizational objectives.

### Key Features

CFC offers a comprehensive solution that helps address security challenges head-on. Leveraging our expertise, technology, and processes helps enterprises:

### The Technology Stack

Our experts have developed a complete CFC framework that prioritizes detection and response, with core capabilities serving as the underlying pillars for a robust CFC.

## An Executive Overview

## Leveraging Google Chronicle SIEM in CFC to Mature the Foundation via SOAR (Security, Orchestration, Automation, & Response)

**Unify Data**  
Collected from various sources like data sources like cloud, infrastructure, applications, and database using Google Forwarders and through direct API integrations.

**Ingest & Prioritize events**  
Enabling the team to work on prioritized alerts and action them as early as possible based on threat severity and risk analysis.

**Perform Advanced Analytics**  
Using the in-built AI/ML capacity to detect threats and anomalies, including zero-day and APT attacks.

**Automate Playbooks**  
Triggers with predefined workflows (playbooks) were included to accelerate remediation, save time, and eliminate human intervention. We were able to deploy them quickly because of GUI-based playbooks.

**Create Threat Hunting Hypothesis**  
Utilization of Chronicle's robust search for proactive threat hunting and environmental visualizations.

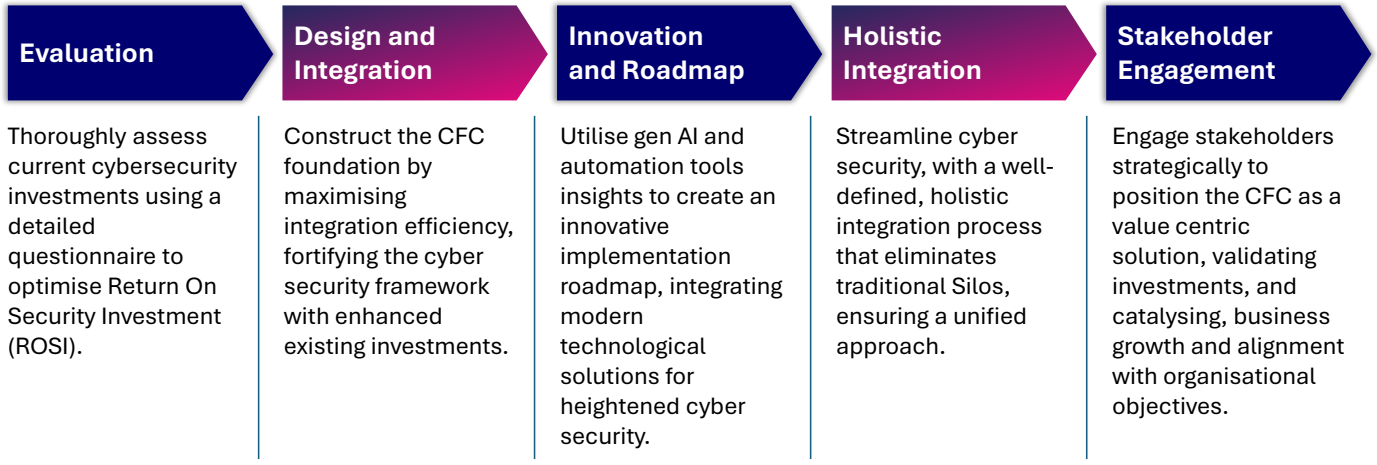

**Central Control of Operations**  
Management and execution of playbooks with a visual interface, facilitating collaboration and team efficiency.

**Collaborate**  
During incident response, our analyst team works together to exchange dashboards and investigation tools.

**Customize and Respond to Incidents**  
Building and adapting playbooks based on specific needs and security policies to enhance overall security posture through effective automated response to satisfy Mean Time to Detect (MTTD) and Mean Time to Repair (MTTR).

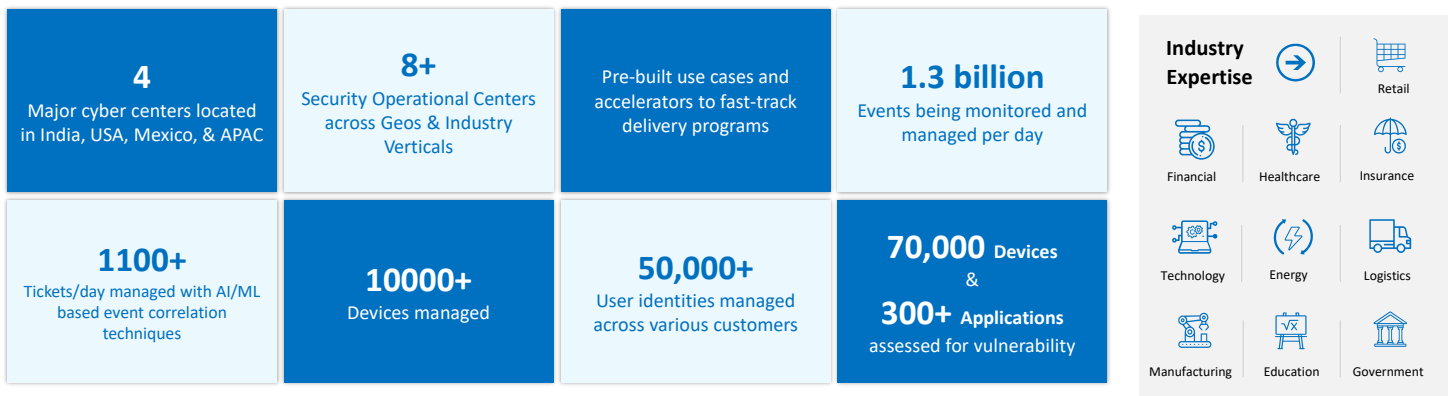

## Strategic Approach for CFC Development

### Innova's CFC Framework: Unique Benefits

Innova's CFC architecture, combined with the guiding principle of "Talk to the Logs," acts as a lighthouse for proactive security.

- **Business Transformation:** Leverage and unify the existing security investments for accelerated CFC framework adoption, leading to a shorter time to production via investment reuse
- **Unified Operations:** Break down segmented operations with a single pane of glass view of cybersecurity posture across enterprise security services, promoting collaborative security management
- **Revenue-Driven Security:** Quantify security threats for informed decision-making, prioritizing threat mitigation and eradication to achieve a measurable Return on Security Investment

#### About Innova Solutions

Innova Solutions is a trusted global technology partner specializing in transformative digital solutions for complex, real-world challenges. With teams across North America, Europe, & APAC, we blend exceptional talent and advanced technologies to enhance operations and drive sustainable revenue growth for our customers. Partnering with technology leaders who share our passion for bold innovation, we deliver cutting-edge solutions such as generative AI, data & analytics, cloud computing, digital product engineering, and cybersecurity. Since 1998, we've proudly supported leading organizations across critical industries—including Banking & Financial Services, Healthcare, Insurance, and Communications—with sector-specific solutions to tackle evolving business needs.

Connect with our experts at [info@innovasolutions.com](mailto:info@innovasolutions.com) to secure your enterprise with a comprehensive cybersecurity solution that predicts and mitigates future risks.
