

Building the Foundations of Intelligent Retail

www.innovasolutions.com

A hand holds a smartphone that displays a perspective view of a grocery store aisle. A shopping cart is in the foreground, and the aisle is lined with shelves of various products. A large, semi-transparent, multi-colored circle (with a gradient from blue to red) is overlaid on the center of the phone's screen. Inside this circle, the text "Applied AI: From Insights to Impact" is written in white, sans-serif font.

Applied AI:
From Insights to
Impact

Legacy Modernization & Cloud-led Transformation

Simplify your landscape, reduce your tech debt and modernize your core with Innova's frameworks and accelerators.

Modernize Beyond Lift-and-Shift

Move past basic migration by re-platforming, re-factoring, or re-architecting legacy systems.

Target Technical Debt & Complexity

Utilize cloud-native patterns—microservices, containers, and serverless—to modernize your core.

Accelerate Low-Risk Modernization

Leverage our solution suite for predictable modernization at scale—Well-Architected Framework assessments, Terraform-based IaC scripts, legacy migration runbooks, and Gen AI-enabled migration.

Strengthen Foundation

Enhance uptime, resilience, and governance through Innova's Managed Cloud Services and a secure-by-design modernization approach.

Cloud Cost Containment & Noiseless Ops

Engineer your cloud estate for cost discipline and operational silence—optimized, predictable, and always-on.

Cloud Cost Containment

Optimize your cloud footprint for immediate cost savings. Right-size workloads, automate scaling, and retire redundant infrastructure.

Well-Architected Governance

Continuous governance based on Well-Architected Framework, cost-optimization pillars and a Cloud Management Portal.

Reduce TCO

Rationalize apps and data to reduce TCO. Eliminate licensing overhead using proprietary Optimization & Licensing Assessment.

Noiseless Operations

Enable stable cloud operations with AIOps—reducing noise, predicting issues, and automating remediation for always-on performance.

Data Orchestration

Transform scattered data into orchestrated intelligence-putting insights on tap across the enterprise.

Ensure Data Readiness

Upgrade legacy data estates to unified, cloud-ready platforms that support real-time retail operations.

Deliver Trustworthy Data (Data Engg. & DataOps.)

Build dependable pipelines and implement disciplined, automated data practices to ensure always-ready data across the retail value chain.

Accelerate Decision Cycles (Data Visualization)

Enable business-led analytics through unified BI, self-service dashboards, and role-based views that surface insights faster and simplify complex decisions.

Respond Faster to Market Shifts (Data Modernization)

Gain real-time visibility across merchandising, supply chain, and channels to respond faster to market shifts and reduce operational risk.

AI For Business Insights (AI For BI)

Unlock enterprise data intuitively—powered by Generative AI capabilities.

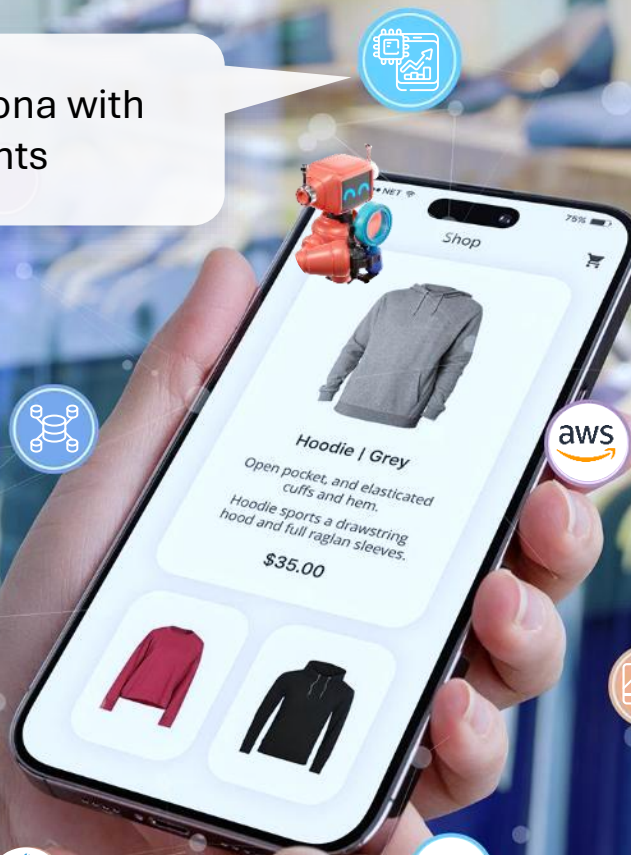

Empower Every Persona with Intelligent Insights

Connect the Dots for Meaningful Business Impact

Enhance Productivity with an Intuitive NLP Interface

Demystify Data & Accelerate Decision-Making

Drive Enterprise-Wide Efficiency & Growth
